

NHR Customer Profile of the month

~ This month, our customer feed back is from Rosemarie Lieb, whose business is **Harebell Herbs**. She has been using NHR Organic oils Products for 3 years now, creating a range of hand made organic products. Rosemarie biodynamically grows her own Comfrey, Marigold, Chickweed, Chamomile, Borage, Elderflower, Evening Primrose, Rosemary, Feverfew & St. Johns Wort in her garden. To prepare the oil infusions, freshly picked flowers and herbs are put in NHR cold pressed organic grapeseed or almond oil and left in the sun for 2-3 weeks. She then blends her products in her workshop and creates a wonderful variety of moisturizers, hand creams, healing creams and body and bath oils, using many of our organic essential oils such as Rose, Geranium, Bergamot, Melissa, Ylang ylang and Jasmine.

Check out her website, and try to only feel a little envy at the spectacularly beautiful surroundings in West Kerry that she works in the vicinity of. Truly inspirational!

"I love your products and high standards and also the human touch"
